DETAILED ACTION

1. This action is responsive to amendment filed 03/09/05.
2. Claims 1-22 are pending in the application.

Reasons for Allowance

3. The following is an examiner's statement of reasons for allowance:

Claims 1 and 8, the prior art does not teach calculating estimation values for surfaces to be deformed by shrinking edges or surfaces of a polygon model by converging two or more vertices of the polygon model based on distances between the respective deformed surfaces after each deformation resulted from the convergence of the vertices and all of the original vertices before the convergence involved in the surface deformation resulted from the convergence of the vertices.

Claims 4 and 15, the prior art does not teach reducing the number of data for the polygon model by converging two or more vertices of one portion of the polygon model based on the calculated estimation values after another portion, repeatedly, wherein before each data reduction, the portion that the estimation value thereof is necessary to be recalculated for the predetermined estimation method as a result of the previous data reduction by the convergence of the vertices is defined as a reduction prohibition area, and a succeeding data reduction by the convergence of the vertices is applied to a portion other than the reduction prohibition area.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
